Haus Venusberg e.V., Bonn

SEPTEMBER 13-15, 2024
ANNUAL SEMINAR

philippinenbüro e.V.
im Asienhaus

ABOUT THE SEMINAR...

philippinenbüro e.V.
im Asienhaus

In this year's seminar, we will deal with **environmental and climate issues** in relation to the Philippines. We will discuss **German raw materials policy** and its **links to the Philippines** as well as the **challenges in the public transport sector** in both countries.

Together with **speakers from the Philippines and Germany**, we will discuss questions such as:

What is needed for an **environmentally friendly and socially just transition** in the transport sector?

Is the **procurement of raw materials** for the renewal of the transport sector reproducing the same **exploitative practices and systems** that have been dominated the raw materials sector for decades?

What are the **demands of civil society actors in both countries** and where can we fight together for climate protection and social justice?
